Cord Runner™

Get power where you need it with Cord Runner extension cords from Coleman Cable Inc., the maker of “America’s toughest cords.” These in-line extension cords have 3 evenly-spaced outlets instead of just one at the end and each outlet has a power indicator light to let you know when the power is on. The heavy-duty 12 and 14 gauge STW cords are durable and outdoor rated for extreme conditions, and flexible even in the coldest weather. Ideal for landscaping, workshops, holiday lighting or any job-site requiring multiple tasks in different areas. For job-site convenience, reliability and performance, professionals know and trust Coleman Cable Inc.

Features & Benefits

- Power where you need it with 3 evenly spaced lighted outlets
- Outlet covers help keep water and dust out
- Outdoor rated
- Available in 50 ft., 25ft. and 6ft. lengths
- Durable 12 and 14 gauge STW 600V cord
- Available in green or bright yellow jacket for safety and visibility
