

TwistBrite™

Get light where you need it with the TwistBrite™ from Coleman Cable. The TwistBrite is an LED work light with a flexible neck which allows light to be positioned in multiple ways. There is no need to worry about replacing the ultra bright LED bulb because it has a life expectancy of 50,000 hours.

The TwistBrite also includes a PVC-coated magnet on the base of the unit for quick attachment to many metal surfaces. It is ideal for workshop, construction, HVAC, plumbing and automotive applications, or anywhere that portable light is needed. For job-site convenience, reliability and performance, professionals know and trust Coleman Cable.

Features & Benefits

- Get light where you need it with a flexible neck
- Magnet on base for easy attachment to many metal surfaces
- Ultra bright long life LED bulb
- Operates on 3 AA batteries (included)
